FOR
PROS

PLACE
OF
MEMORY

DISCOVER | EXPERIENCE | TRAIN

**All two years, Natural Stone and Stone Technology competence forum
is offering the branch meeting in the Nuremberg Exhibition Centre.**

Stone+tec's offer is divided into **three major themes**. The trade fair offer is an invitation to discover and experience and is directed at all stone processors from building construction, cemeteries, historic monuments and design, as well as property developers, planners and architects. In addition to this the Stone+tec is accompanied by a **trade congress** offering the possibility of further training.

- Are you looking for a platform where the national and international stone branch can meet?
- Sustainability, regionality and new technologies are must-haves for you?
- You want to win new customers and maintain long-standing contacts?

Then you are in just the right place at the Stone+tec!

register by June 19, 2023!!

Our goal at the Stone-tec is bringing visitors and exhibitors together in a targeted way to find solutions, products and requirements.

Comprehensive lead tracking for contact follow-up optimises your personal success.

„We are all back and happy to be together again. There were far more people there than we expected. The event gives us encouragement as an industry on how to move forward and what's to come.“

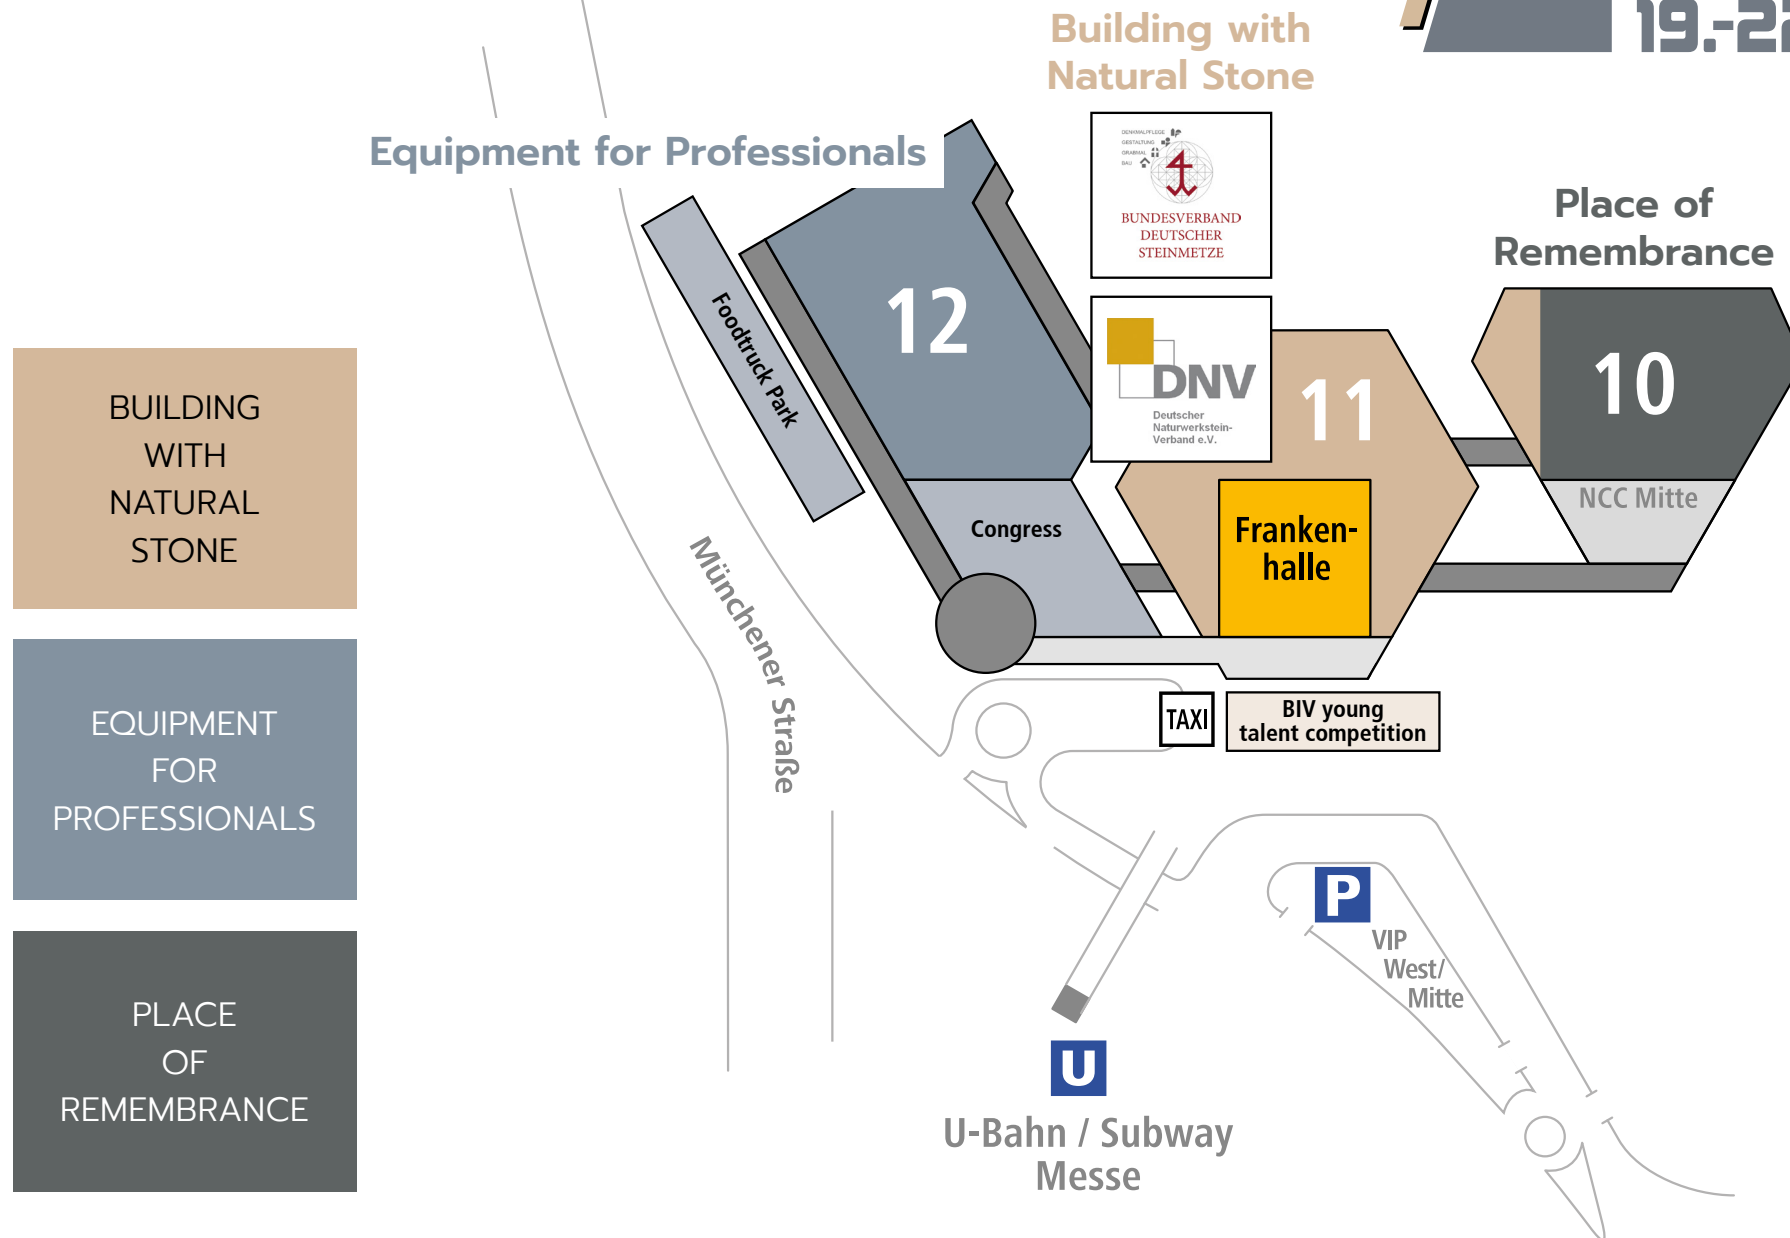

Franziska Petri, Managing Director, J. König GmbH & Co

„There are a lot of innovative things to see at the trade fair, which I experience in a completely new way, despite my many years of experience in the trade. You can look at a lot on the Internet, but that doesn't help in the long run. You also have direct contact with suppliers again at the fair and can discuss something in person.“

Markus Steininger, President, BIV Bundesverband Deutscher Steinmetze
