Uzbekistan's buoyant project pipeline to accelerate your business growth

Uzbekistan is accelerating investment across construction, housing and infrastructure. In 2026, the country is targeting **11% growth in construction activity, with construction work expected to reach \$30 billion**, while **140,000 apartments** are planned for the year.

Investment is also rising across the wider economy. **UZS 338.9 trillion** was invested in fixed capital in the first half of 2026, up **17.5% year-on-year**, including **UZS 32.5 trillion directed to construction** and **UZS 27.3 trillion to residential construction**.

Infrastructure development is adding further opportunity, with **more than \$20 billion of projects currently being implemented with international financial institutions**. Together, this activity is creating demand for building materials, construction technologies, equipment and solutions across the market.

Big 5 Construct Uzbekistan connects international and local suppliers with the **contractors, developers, consultants and procurement professionals behind the country's growing project pipeline**, combining new market opportunities with the **global reach of the Big 5 portfolio of construction events**.

Position your business in this thriving economy and understand what Uzbekistan is building next

Big 5 Construct Uzbekistan positions your business at the centre of a construction market gaining momentum, connecting you directly with the contractors, developers, consultants and procurement professionals behind the country's expanding project pipeline.

What you gain:

Direct deals with active buyers

Meet contractors, developers and project stakeholders ready to source construction products, materials and technologies.

Competitive positioning at scale

Showcase your solutions alongside leading regional and international suppliers.

Turn project access into qualified business opportunities

Connect with contractors, developers and consultants behind major projects and stakeholders influencing procurement, specification and supply agreements.

Direct access to Uzbekistan's project pipeline

Connect with contractors, developers and consultants delivering major construction, infrastructure and urban development projects.

First-hand intelligence on market demand

Understand what buyers are sourcing, where demand is growing and which products and solutions the market needs next.

Long-term commercial partnerships

Build relationships with customers, partners and project stakeholders that can develop into future orders, supply agreements and repeat business.

Catering to the growing demands of Uzbekistan's construction industry

Large-scale urban development

20,000 hectares planned for New Tashkent, with 200,000 apartments by 2034.

Expanding housing construction

140,000 apartments planned for completion across Uzbekistan in 2026.

Major infrastructure investment

\$20BN in projects currently being implemented across key sectors

Transport & engineering expansion

21 km, 9 stations planned for the new metro line connecting Tashkent with New Tashkent.

Energy-efficient construction

New Tashkent is prioritizing energy-efficient technologies and green-city principles across its development.
