

The first edition of **STONE.GAL** will take place in Vigo from **3 to 5 June 2025**. The event is dedicated to natural stone and stone technology and it will be located in the Vigo-Porriño area, Spain, the European capital of granite.

Galicia and northern Portugal are essentially the industrial hotspot for granite production in Europe having a culture of natural stone quarrying and production that dates back to pre-Roman times.

IFEVI, the Vigo Congress Center that will host **STONE.GAL**, is only a few minutes from the airport and has the capacity to host trade fairs of up to 50,000 m<sup>2</sup>.

Vigo is only fifteen minutes from Porriño, where the most important granite quarries in Spain are located and 45 minutes from the quarries of Portugal. Furthermore, it is located just two hours from the slate quarries of Pizarra de Valdeorras.

Vigo, the largest city in the Autonomous Region of Galicia, is a city of 300 thousand inhabitants directly on the sea, located in the Ría de Vigo, with the Cíes Islands closing the bay and protecting the Port, the main stone logistics hub in southern Europe.

The capital of Galicia is Santiago de Compostela, the "city of stone": the Cathedral, the Plaza del Obradoiro and the Historic Center are the most important elements.

Porto, Portugal's second city, and Coruña are just an hour and a half away by car.

The proximity of the quarries and the stone industry, the gastronomy of the area and the temperate climate make this place an ideal place to organize a world event on natural stone.

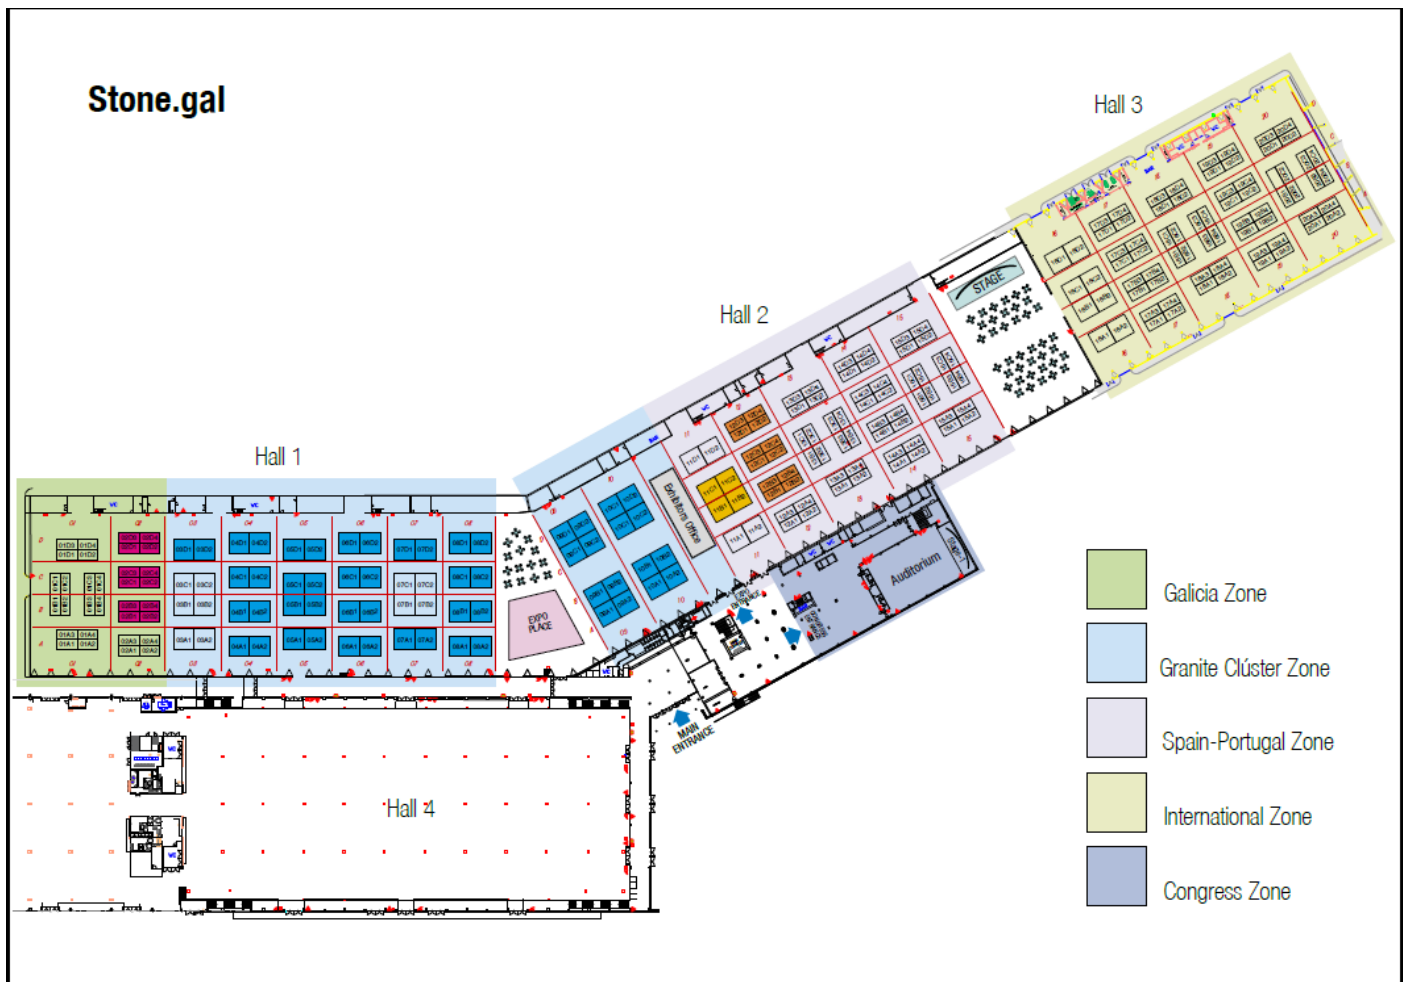

Furthermore, the use of natural stone in urban, commercial and residential architecture in all its applications makes this area the ideal industrial showcase to learn first-hand about trends and innovations in architecture and decoration with natural stone.

**STONE.GAL** is organized by Natural Stone Event with the support of Xunta de Galicia, Cluster da Pizarra de Galicia and Cluster del Granito.

CONFINDUSTRIA MARMOMACCHINE, through its subsidiary Marmomacchine Servizi Srl - will collaborate in the promotion and management of the participation of companies from Italy, Greece, Egypt, Turkey, India, Brazil, the United Kingdom, France and Russia.

The participation offer includes the possibility of reserving both raw areas (min. 36 m<sup>2</sup>) and equipped areas with a minimum size of 18 m<sup>2</sup>.

## OFFER:

**Raw area: *Excel Exhibitor* with own design stand: min. 36 sqm**
